Materials:

Small Paint Brushes, Water Cup, Paint Pallet

Paints:

Black
Red
White
Bronze
Black Wash (I prefer Vallejo Game Color Black Wash)

Step 0) Use cutters and sanding paper to remove any extra plastic and reduce layer lines.

Step 1) Paint the whole figure with a thin layer of black paint. Don't worry about the white showing through, just try to get everything covered.

Step 2) When the black has dried, paint the red areas.

Step 3) Put a second coat on the black and red areas. When dry, touch up any red overbrushing with black.

Step 4) Two coats of white paint on the face and two coats of bronze on the bells

Step 5) Black wash the entire model, it's runny but get it all over and let it settle into the cracks to fully dry!

Once dried you should end up with something like this!
